# Durham Public Works Department Head Report 2-23-21

- The department continues to fight back-to-back storms. The weather pattern has certainly shifted to active in February.
- I have been in communication with surrounding Towns regarding the spring road postings and we have all agreed to take a collaborative approach and post the roads on March 1<sup>st</sup>.this year.
- I sent out the draft vehicle weight posting ordinance a couple of weeks ago and I have attached the info to this email as well. You will notice in the draft that I have put any suggested changes in red text, the remaining black text is what is in our current ordinance. I would like to note that our ordinance book doesn't have an attested copy and Ruth and Becky said that the unattested copy is the only one we have to their knowledge. As I stated in my last report, I don't believe the ordinance is enforceable if we don't have a signed version by the Board. It is therefore my recommendation that the Board adopt the ordinance with the suggested changes as a new one rather than an amended one.
- I have received the contract documents from the engineer regarding the 2021-2023 paving - Advertisement for Bids- I would like to advertise this immediately to get the best pricing.
